## Statement of Principles and Practice

The College aims at all times to offer a welcoming and friendly environment, which is healthy, safe and inclusive and promotes freedom of access, equality of opportunity and encourages individuals to develop to their full potential.

The safety and wellbeing of all students is a key priority. Safeguarding and Prevent measures are embedded throughout the student experience. Information is provided for all students to ensure they are aware of any type of harm or abuse, including preventing them from becoming involved in extremism or any form of radicalisation.

For our residential students, living in the heart of a rural community, the objective translates to the provision of high quality accommodation, care and welfare for all throughout their time with us. We have a set of College Values which are reviewed regularly, and these are promoted together with British Values.

The objective is put into practice by a dedicated residential services team, who liaise with academic, support and management staff across the College to implement effective policies and procedures which ensure a residential environment that fosters learning, self development, esteem and respect for others.

The Learner Safeguarding and Prevent Team have a particular responsibility to ensure Safeguarding and Prevent policies, procedures and practice are understood and followed by everyone.
